Destination

Avid fans of the HBO show “Vikings” will recognise Scandinavia for its cold and rugged picturesque nature and Norsemen as axe-wielding barbarians. A lot has changed since then, although founded in the era of Vikings and still being the oldest monarchy in the world, flat Denmark is now considered the home of laid-back hygge, happiness, dining and design. Herning is a small city of 50,000 inhabitants in the Western part of Jutland established some 200 years ago as a centre of commerce when agriculture accelerated in the area. A century later, it boomed as a growing textile industry based economy which has somewhat slowed down over the last decades.

Today Herning is known as a congress and events city with emphasis on large scale conventions, rock concerts and sports championships, in recent years attracting the Giro d'Italia, World and European Championships of handball, ice hockey, U21 football, swimming, and taekwondo among other. For those of you fortunate enough to explore the local sights, Herning Contemporary Art Museum (HEART) and Carl-Henning Pedersen & Else Alfelt's Museum display world-class modern art in architecturally astounding buildings and are conveniently located next to each other by the university campus in the Eastern part of the city.

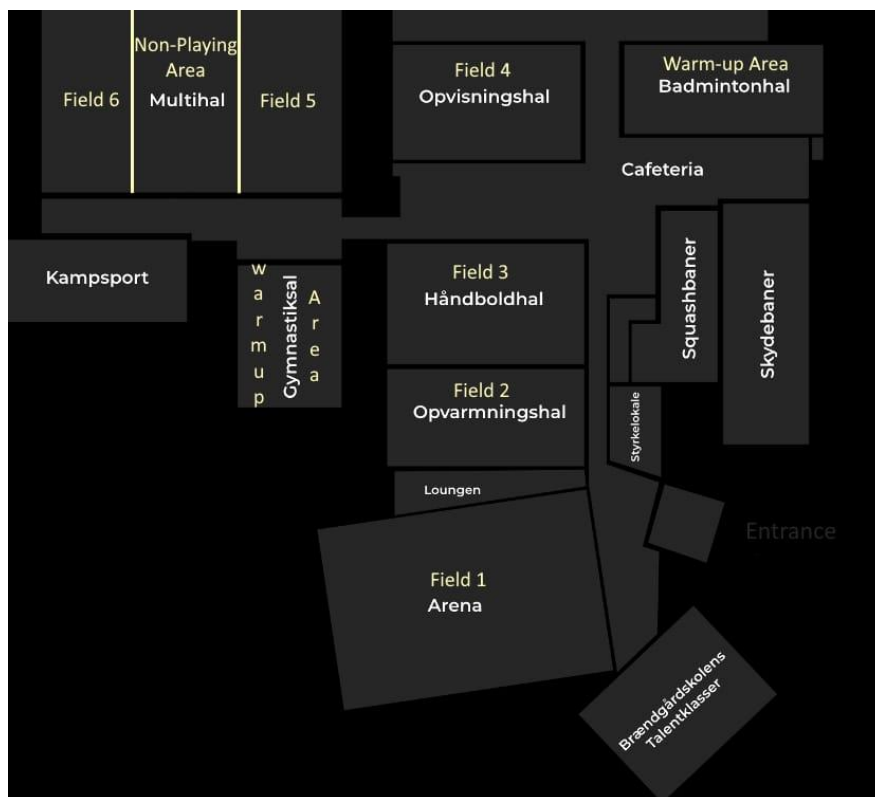

For the rest of you, we hope you will enjoy the welcoming atmosphere of the people and the city - and perhaps drop into one of the restaurants.

Venue

Sportscenter Herning (www.sportscenterherning.dk) is a modern sports complex housing seven handball fields (rubber block on concrete floor with same bouncy feel as hardwood floors; bring indoor shoes) at disposal to the EUICC as well as the gymnastics and badminton halls available for warm-up and an abundance of changing rooms. Coming from the parking area, enter through the main entrance to find Field 1 and 2. Continue to the cafeteria from which you may access the other playing fields and changing rooms to the left and the Tournament Central upstairs. First aid for injuries (free) on site.
