# Welcome to Santa Cruz

## WELCOME

... to the 12th annual California State Championships. The UCSC Men's and Women's Ultimate team are proud to host this tournament for the 7th time. This tournament has a long standing tradition of excellence in the quality of play. After all this is a tournament put on by players for players.

However the emphasis is not solely on the games themselves. It is equally on the overall experience of each and everyone involved, from the spectacular view of the Monterey Bay from the fields to the always popular Saturday night party.

So once again, welcome to Santa Cruz and I hope you enjoy the Tournament for all its' worth

## About the Sport...

When you watch ultimate frisbee played you might get a bit confused. Why is everyone running around, stopping, then running around again? Well to state things simply, ultimate is a game of movement; players are trying to move the frisbee up the field so they can throw it to a teammate in their endzone to score a goal. The person who catches the disc must stop, you can't run with it, and establish a pivot foot (like basketball). Once covered by a defender (the mark) s/he has 10 seconds to throw a pass. The receivers make cuts and moves to lose their defenders so they can get open for a pass. If the disc is dropped, hits the ground, goes out of bounds, is caught out of bounds (first point of contact must be in the field of play), or is intercepted by the other team, a turnover takes place and possession of the disc changes. There are no officials in ultimate, the players call their own fouls. If a player feels a foul has been committed s/he will make the call. Players involved will often "discuss" the foul, then check the disc back into play. If they can't come to terms on the foul call, the team captains will often step in to settle the matter. Each goal is 1 point and games are played to a predetermined number of points.

If you are curious about the rules, a particular situation, or the strange names used in the game, feel free to ask some of the players on the sideline who look idle. Often these players are more than willing to share with others the unique nature of this sport. If in doubt visit the big tent where we might have some info for you, or we can at least answer your questions.

Remember that ultimate frisbee features many true athletes, the only difference from other sports is that they use a ball and ultimate a disc. In anycase you should find the sport an exciting one to watch, whether you have a true grasp of the rules or not.

### ULTIMATE HOROSCOPE

**TAURUS** This could be your big weekend, Taurbabe. Look deep in the endzone for those Hucks from Hell. Use the powers from within to help you snag those discs. The force is with you--let it guide you through. Look over your shoulder, and beware of flying Capricorn trying to snack on your pass.

**GEMINI** Shred, shred, shred! That's what the Stars say, anyway, if you so wish to heed their words. Your duality could give you some problems, if you're not careful. Keep your head clear, and don't pull into the wind. A word of advice: don't dump to Aries, look for the swing first.

**CANCER** Does "screen" mean anything to you? It should. Watch where you're running this weekend--and most important, don't run into players on your same team. Remember, you're working together, not taking each other out! Wait until after the games are over to go out. Question those who try to 'explain' the rules.

**LEO** Crossfield Hammers! Upwind Scores!! But don't clog in the endzone. This is your biggest downfall, and you know it. Don't let your teammates down--just clear out! Your cosmic spot for the line-up is right in the middle--keep three players on either side of you, and you will Rage! Especially if there's a Taurus on your team.

**VIRGO** You're not too old to learn something new. Try that lefty flick that you've been working on. The cosmos will come together, and guide you through. This weekend, things are just flowing with Pisces--the connection is there. Don't deny Fate, just work it into your schedule.

**LIBRA** Keep the scales balanced. The equilibrium of the universe lies on your shoulders. Don't throw swill. Take your time, and look for the cut. It's there, you just have to wait for it. Don't be impatient. Aquarius is always there for you--it just may not be as painstakingly obvious as you may need.

**SCORPIO** So, you think you're going to win the party, eh? Just remember, there are young Sagitarius' out there who are already raging. Keep your head--try not to get too out of control. Your team needs you on Sunday morning. And when you hear "First seven on the line," you had better run fast; you snooze, you lose.

**SAGITARIUS** Watch the travelling, Sag. That should be reserved for the roads, not the fields. Wear your Nike sharks, and you'll be able run faster, jump higher, and get more biffs. The key thing for you this weekend is to contest all fouls in the endzone. Practice saying this: "but you ran into me!" Don't trust Leo to call you out of bounds.

**CAPRICORN** Why are you so tense? It's Spring! And you're in Santa Cruz!! Most people would trade places with you in an instant, if they could. You are an inspiration for the rest of your team, so don't freak out the new players by yelling on the sidelines. Just throw your backhand into the left corner of the endzone. It works.

**AQUARIUS** The age of Aquarius is over, so don't be so much of a hippie. Get a haircut! It'll help you see the disc better, anyway. Don't leave your new Cal State disc on the field, or it will surely be picked up by wandering souls looking for the meaning of life. Don't let yourself be covered by a Scorpio.

## RECYCLING

We have set up a Cal States recycling program that will take cans, glass bottles, clear plastic bottles and Odwalla juice bottles. Please take all cans and bottles over to the large white bags by Frisbee Central.

We have some problems right now with non-renewable resources so let's all do what we can to help. Please don't just leave bottles and cans lying around on the sidelines. Take a cruise by Frisbee Central and drop them off in the recycling bags. Earth thanks you.

# POOCHEY THE GEEK'S SEEDING

## MEN'S DIVISION

**SOUTH BAY TSUNAMI:** National Champions. They brought respectability back to the west after the 1987 Nationals "we suck club." If P.M. can't make it and they can steal some Chabot players they are a shoe in to win. (Odds 2-1)

**SAN DIEGO WIPEOUT:** After winning thier first tourney ever at home the question is can they take the show on the road? If Donny, Carmine, Jim Daddy, and Bullet can share the peak with the new tribe this team could be on the road to Nationals. But this is Cal-States, sorry guys. (Odds 5-1)

**LOS ANGELES DRIVERS:** Sometimes thier "O" is as open as a four lane freeway and other times its like the Harbor freeway at rush hour. If Brent can find the fields and Gallagher's cortisone shots last until Sunday they could go all the way. (Odds 4-1)

**CHABOT 101'ST AIRBORNE:** Defending State Champs. Always at thier best at states. This tourney has been good to them but coach Pohl has shaken up the ranks. Who knows what to expect this year. (Odds 7-2)

**SANTA BARBARA CONDORS:** What's a Condor? Cowering since nationals and thought extinct many have been sited on the slopes of Tahoe and aimlessly wandering the beaches of S.B. Once a perrenial power..... (Odds 16-1)

**LES LIASONS:** Or dangerously cagey vets. One of the best teams in Northern California with enough age and experience to take them to quarters or win Division II. (Odds 8-1)

**BERKELEY EAST BAY:** I like these guys, Jesse, K.V, E.V., Cheese, and Zach when he's not drunk! Fourth in the region could be fourth in the state. (Odds 4-1)

**PORTLAND CALIFORNIA:** A newly found town somewhere north of Arcata. This is a team that can still put together some of that Redwood magic. The question is are they good enough to rate with the rest of the state? The'll win the party. (Odds 8-1)

**U.C. BERKELEY BEARS:** No. 1 ranked collegiate team. Warming up for Regionals and Nationals but can they expect to contend in the pro circuit. Maybe after graduation. (Odds 12-1)

**SANTA CRUZ CLUB:** Your host for this weekend and battling for the Santa Cruz bragging rights, with Skippy, Hobanski, and Becker the best threesome on the field. Oh! this is Ultimate not freestyle. (Odds 6-1)

**UCSC:** With the Dead at Frost they'll be lots of playingtime for Vacation Boy and Donzo "Blade" Gordon. The youngest team in California and host of the Tourney. You gotta love these guys. (Odds 11-1)

**SAN FRANCISCO ACME:** Definately an underdog this year. A team that has improved in disc skills and offensive concept. Not in the top eight but could win division II. (Odds 15-1)

**BURBANK FRIED EYES:** First Cal-State appearance without Babbit. Thier unorthodox style of play always catches teams off guard. If games were to five these guys would be undefeated. (Odds 10-1)

**ORANGE:** Upset minded these monsters of sky came to play and stay high. I hope they paid thier entrance fees. (Odds 13-1)

**DAVIS DOGS:** College team? Not this weekend. First Cal-States in a long time, Welcome Back! (With the Condors in thier pool (Odds 3-1)

**PALO ALTO HAMMERHEADS:** These guys practice with the National Champs, maybe something has rubbed off on them. Not Likely. They stand to win division II. (Odds 8-1)

## WOMEN'S DIVISION

**MAMBA:** Destined to win the tournament. Has destiny finally arrived for Mamba? Can Mamba rise to be a state power? Yes! (Odds 2-1)

**SANDY EGO SAFARI:** Definately the most festive team. If Kate makes the trip and Wendal can find her recievers can be as hot as any team. (Odds 3-1)

**SANTA CRUZ:** A team rising in power! Using States as a stepping stone to College Nationals look for these women to pull-out some stunning upsets in the years to come. (Odds 7-1)

**DAVIS - HUMBOLDT:** What do you get when you combine a Cat with Hag? A Cag. But not with these women. (Odds 4-1)

**LOS ANGELES - SANTA BARBERA:** Ann and Kelly back together again! Along with supporting cast of past State Champions, these women will give Mamba a run for thier money. (Odds 2-1)

**TEAM 3:** A new team from the Bay Area. Thier first Cal States, let's hope its not thier last. (Odds 8-1)

**SAN FRANCISCO OZ:** Competing with San Diego as most festive, these gals will definately win the party. Let's hope most of them don't end up at the Dead Show on Sunday. (Odds 6-1)

**SANTA CLARA YETI:** Always a Cal State favorite. One of the longest standing California teams and with a strong showing they could make it to semis. (Odds 5-1)

## HOROSCOPE CONTINUED

**PISCES** Don't go for those 'glory' shots. It's not going to show up on the eleven o'clock news, so what's the big deal? Just play smart disc. Don't let a Gemini get behind you if you're covering them deep. And keep your eyes open for those side line flicks up the line. It could happen to you when you least expect it.

**ARIES** Love thy fellow disc players. If you do, you won't look off that beautiful wide open cut right up the middle. Use your fakes, remember to pivot, and you'll be able to do amazing things. The world as you know it will open up and reveal its Ultimate Secrets to you. Share the wealth. Buy a beer for a Virgo.

Will (not bur) and Alan Rudy discuss the nuances of lefty scoobers as they apply to Heidiggers theories

## LETTERS TO THE EDITOR

To the Editor,

As yet, we have not addressed the ultimateness of Ultimate. A shortcoming in our development few would deny.

First we must consider the artness of the art of the thing, Ultimate. Our primary consideration must not be IF the art of the thing, Ultimate, occurs, but when. What is the art of Ultimate? The question is moot. The art of Ultimate is the conjunction of the artness of the thing with the thingness of the art of Ultimate (VIDE Van Gogh's peasant shoes): thus the artness of Ultimate, its ultimate-ness, is inherent in the Artness of its thingness, i.e., Ultimateness.

But what, you may ask, is the inherent inherentness of the artness of Ultimates' art. It is, simply, the artness of the At-one thing,, true Ultimateness, and its thingness, thus, the ultimateness of the things art of Ultimate. The thingness is in part influenced by the art-ly quality of the ultimateness of the thing, Ultimate.

Is Ultimate art? Yes, but only if the thing inherent in Ultimate has also reached a state of juxtaposition of the ultimateness of the thingness of the thing, the art of Ultimate. The ultimateness of the thingness is in part influenced by the ultimate-ly art-ly quality of the artness of the thing, Ultimate.

Is Ultimate art-ly? Yes, but only if its juxtaposition is a conglomerate At-oneness of ultimately art-ly, thing-ly qualitties. Ultimate thus embodies the ultimate thingness of the art-ly thing, Ultimate, as well as its ULTIMATE as an ultimate thing and as Ultimate in an art-ly, thing-ly, ultimate-ness.

Sincerely,

Martin Heidigger

All you perpetrators listen to what I say,  
I'm gonna tell y'all a story 'bout this game we play:  
I remember the days of old,  
'fore your foo-foo lycra dipt you from the cold,  
Going back some years when Pat Pohl was young,  
And Kelly Green could still run,  
When Ultimate still rhymed with fun,  
And Bobby Wertz didn't have black lung,  
When Peggy O'Byrne would hit a swing,  
Before Peter Hecht tried to sing,  
When the phrase'the spirit of the game'  
Meant throwin lotsa swill and not taking any blame  
That's whin I first hit my prime  
And I won't come down in your lifetime,  
Because no one around can stop me,  
I'll toast you on O then eat you on D.  
I can pull ninety yards into a tropical depression,  
Play every point and I'll still be freshin',  
While you spew about how you deserve top billin',  
I'm Chillin'
