

Saturday & Sunday, Oct. 9th & 10th
Humboldt State U.
FREE ADMISSION

*Games at 10:00 on lower & upper
Ultimate Fields*

Hosted by The Humboldt Ultimate Disc Club

Greetings!

— Welcome to the fourth annual Humboldt Harvest Ultimate Frisbee Tournament —
This year's Ultimate happening is taking place at Humboldt State University. With the acquisition of the new lower soccer fields, exciting parallel play is sure to come our way. It's a nice opportunity for us to have the tournament on campus; the Humboldt Disc Club has worked hard to obtain campus facilities in order to promote Ultimate to both students and the local community.

Ultimate is spreading rapidly. It has been played for fifteen years on the East Coast, six months out of the year on a weekly basis. We on the West Coast have enjoyed this sport for the past ten years. The San Francisco Bay Area has a Northern California Ultimate League, which has ten teams competing on a weekly basis several months out of the year.

Being both a non-contact and unofficiated sport makes Ultimate not

only unique, but a refreshing break from traditional athletics. The flight of the frisbee compared to a football, baseball or basketball is more pleasing to the eye. Consider the frisbee: it has the ability of angled flight, like the boomerang; the other spherical objects lack this ability. The angled flight helps to overcome the defense and adds a different dimension to the offensive strategy, thus making the sport of Ultimate quite exciting.

We sincerely hope you enjoy the tournament, the fun, the "spirit of the Game," the people, the energy, the music, the laughter, and most of all, the "Ultimate" experience!

Love from
the Redwoods,
The Humboldt
Disc Club

Tournament Schedule

Saturday, October 9th, 1982

- 9:00 A.M. *Captain's Meeting*
- 10:00 A.M. - 6:00 P.M. *Preliminaries*
- 9:00 P.M. *Humboldt Harvest*

T.H.C. - The Active Ingredient

Women's Ultimate is slowly but surely becoming popular on the Northcoast. We women lack the participants needed to promote Ultimate on a wide scale. However, we do have a handful of women who are devoted Ultimate players in Humboldt County. It is our hope that along with the increased popularity of women sports will come an awareness of frisbee as an alternative.

Last year there was a revival of Women's Ultimate. With the encouragement and

support of the Humboldt Buds the Women's team emerged. Though the team had only a few experienced players there was much enthusiasm and determination amongst us. Under the name of T.H.C. we traveled to tournaments in Eugene, Berkeley, Santa Cruz and Stanford. Despite our inauspicious showings, our optimism grew as we became better and better at working together as a team.

With the basis formed in our beginnings last year we continue to grow and build the women's team. T.H.C. is getting psyched for Ultimate disc play, and is sure to make its energy felt in this coming year of tournament play.

Ya-yuh!

TEAMS COMPETING IN THIS YEAR'S HUMBOLDT HARVEST 1982

WOMEN'S COMPETITION:

Portland Fun Hogs	The Humboldt Connection
Santa Cruz Kaos	Eugene Dark Star
Santa Clara	Air Flight Contollers

The Sport of Ultimate Frisbee

Ultimate Frisbee is a ~~fast-moving team game~~ that combines the best elements of soccer, basketball and football. The game is played by two seven-man teams on a 70' x 40' playing field. The object is for each team to score by completing a pass in the opponent's end zone while preventing the opponents from scoring.

The game begins with both teams lined up facing each other on their respective goal lines. The throw-off starts play. On offense the disc can be moved only by passing from teammate to teammate. A player may not run with the disc. If a pass is dropped, intercepted or thrown out of bounds, it is an immediate "turnover"—the disc belongs to the other team without stopping play. Defense is played much like it is in basketball with both zone and "man-on-man" D's being employed. Defensive players attempt to inhibit the offense by knocking down or intercepting passes to cause turnovers. The disc cannot be knocked from the hands of an offensive player. While there is certain amount of physical contact, screens, blocks and other purposeful contact are not allowed.

Ultimate Frisbee has proven to be an appealing spectator sport. The disc itself is aesthetically pleasing in flight and its unpredictability adds something to the game that a ball would not. Also, the action is almost non-stop and it involves all players on the field all the time, rather than focusing on only a few individuals. There are as many styles of team play as there are teams. At its best though Ultimate combines a controlled, patterned, precise shortpassing game with the more dramatic long passes to receivers "going parallel" (making an all-out dive) to make a catch for a score.

Join us in spreading enthusiasm for the Ultimate in sports activities!

★ Over 20 games to choose from ★

Open 10:30am - 11:30pm Daily

The Humboldt Disc Club is proud to host its seventh tournament in 4 years. In that time, the club has gone from less than 20 team players to 10 intramural teams on campus, plus a travelling squad of 30 people, in addition to our ladies team, "the Humboldt Connection".

Our club travels from Northern Oregon to Southern California to experience Ultimate Competition on the West Coast. As part of the Ultimate Players Association competition, our team will travel to Salem, Oregon for the sectionals (Oct 23rd & 24th), and to Irvine, Ct. for the regionals, (Oct 30th & 31st).

The Disc Club has been promoting both Ultimate and the team to H&U and the local community with great zeal. We strive for the recognition of Ultimate as a competitive athletic sport, while emphasizing the friendly social atmosphere which accompanies it.

Please join us in spreading our Ultimate Energy!

We would like to thank:

Jane & Michael Grossman,
Kent Mayell, Steve Cox, Dan
Goldberg and Eric Taylor.

Most ~~Important~~ Special Thanks to:

The Epicurean

WELCOME ULTIMATE PLAYERS!

The Osprey is a common bird of North America, and Humboldt County offers an environment that it prefers. The Osprey feeds solely on fish, and the rivers of the North Coast provide it with an ample supply of trout, salmon and steelhead.

During the early Fall of 1982, an Osprey has been seen several times from evening Bud practices on the Upper Field, flying past the 11th tee, presumably towards its home high in a redwood snag...
